## Profile

---

Full Stack Developer with 8+ year of experience. I worked for many big companies in lead development positions, while maintaining my work as a Senior Engineer helping with architectural tasks and development.

- I'm UI/UX obsessed, work very well also with designers.
- In my experience I worked well as a team player, always helping and trying to understand people before systems.
- I work mainly with Typescript, React.js for frontend and Node.js for backend.
- I'm a fan of GraphQL.
